Subject: *Visting Boston to attend MIT's Commencement 2013.*

Dear Madam/Sir:

I am Prasant Anumanchipalli. I have been a student at Massachusetts Institute of Technology (MIT), Cambridge from September 2009 to December 2012 in the Electrical Engineering and Computer Science Department.

During my studies at MIT, I have spawned a start-up by the name RK Engineering Services. We provide computational solutions to civil engineering and mechanical engineering problems including simulations to test if the proposed structures can withstand the desired load limits. I have included the tax returns of the firm over the last couple of years with the applicant. Currently, I am working full time on my start-up.

I wish to attend the student graduation ceremony of this prestigious institution on the 6th and 7th of June 2013. I hold a F1 visa vide *control number* 20091473220001 issued at Hyderabad post and a B1/B2 visa vide *control number* 20090507110004 issued by the American Consulate General of Chennai (Madras) post valid till the february of 2019.

On the 8th of December 2012, I have exchanged vows with Ms Madhu Surya as per the Hindu custom. I would like my spouse to be alongside me at the Commencement. I would like you to give us an opportunity to attend the Commencement at this esteemed university.

Thanking you in anticipation.

Sincerely,

Prasant Anumanchipalli
Founder & CEO
R K Engineering Services
